

Enhanced Super Digestive Enzymes with Probiotics

Promotes optimal digestion and GI balance

Item #02022 • 60 vegetarian capsules

Digestive enzymes are essential to the body's *absorption* and optimal utilization of food and all its nutrients.^{1,2}

Normal aging and related health issues can decrease production of digestive enzymes,^{3,4} resulting in a **bloated** feeling and other discomforts after eating a large meal.

Enhanced Super Digestive Enzymes provides specific *enzymes* required to support the natural reactions that break down food — demonstrated to optimize digestion and nutrient absorption.⁵⁻⁸ Here is the broad array of *enzymes* contained in this formula:

- **Protease** to help break down proteins
- **Amylase** to break down starch and short sugar chains called oligosaccharides
- **Lipase** to break down fats
- **Cellulase** to break down the indigestible polysaccharide in dietary cellulose
- **Lactase** to break down lactose

This formula also provides the added benefits of the probiotic *B. coagulans*. This **probiotic** creates a natural protective shield that resists digestion in the stomach allowing it to fully colonize in the intestines.⁹ Probiotics such as *B. coagulans* support digestive health and suppress less beneficial bacteria to improve digestive comfort.⁹⁻¹⁰

Also available without probiotics ...

Enhanced Super Digestive Enzymes

Promotes optimal digestion

One vegetarian capsule contains:

Vegetarian Digestive Enzyme 208 mg Blend (supplying)
Protease SP (*A. oryzae*, *B. subtilis*)
25,000 FCC (HUT)
Bromelain (*A. comosus*) 800,000 FCC (PU)
Amylase (*A. oryzae*) 10,000 FCC (DU)
Lactase (*A. oryzae*) 2,000 FCC (ALU)
Cellulase (*T. longibrachiatum*) 2,000 FCC (CU)
Lipase (*C. rugosa*) 7,500 FCC (FIP)
Lactospore® Bacillus 1 Billion CFU†
coagulans MTCC5856
Other ingredients: microcrystalline cellulose, maltodextrin, delayed release capsule (hypromellose, purified water, gellan gum), medium chain triglycerides.

Dosage and use

- Take one capsule one to two times daily prior to the heaviest meals, or as recommended by a healthcare practitioner.

† Colony forming units at time of manufacture.

Non-GMO
