

Immune Senescence Protection Formula™

Dual-action formula for youthful immune system function

Item #01905 • 60 vegetarian capsules

A healthy immune system is composed of a youthful balance of **naive T-cells** and **memory T-cells**. Naive T-cells attack new invaders, while memory T-cells attack previously known invaders. After a naive T-cell attacks a new threat, it converts to a memory T-cell, which can only go after a threat that it remembers.^{1,2}

However, our immune systems sharply decline as we age, accumulating senile memory cells and becoming deficient in naive T-cells. With this imbalance, our body is less able to defend itself against new invasions. The result is immune senescence, which has been directly linked to increased health risks and accelerated aging.³

Our new dual-mechanism formula helps counteract the age-related decline in immune function with complementary nutrients that rejuvenate both major arms of the aging immune system. **Immune Senescence Protection Formula™** promotes the development of naive T-cells while also improving natural killer (NK) cell activity. In experimental models, the result is an increase in life span!⁴

Standardized Cistanche

Item #01906 • 30 vegetarian capsules

If you're seeking the effects of **Cistanche** only, Life Extension® has created a standalone **Standardized Cistanche** that contains the same echinacosides as in the **Immune Senescence Protection Formula™**. You can obtain the recommended **210 mg** daily **Cistanche** dosage in a single, high-potency capsule providing a potent **46.2 mg** dose of echinacosides.

Standardized Cistanche provides powerful support against immune senescence.

Two vegetarian capsules contain:

Reishi mushroom (*Ganoderma lucidum*) 980 mg extract (fruit body) [std. to 13.5% polysaccharides (132.3 mg) and 6% triterpenes (58.8 mg)]

Shell-broken Reishi mushroom 150 mg (*Ganoderma lucidum*) (spore)

Cistanche tubulosa extract (stem and leaf) 210 mg [std. to 22% echinacosides (46.2 mg)]

Other ingredients: vegetable cellulose (capsule), rice flour, starch, L-leucine, silica.

Non-GMO

Dosage and use

- Take two capsules daily with food, or as recommended by a healthcare practitioner.

One vegetarian capsule contains:

Vitamin C (as ascorbyl palmitate) 2 mg

Cistanche tubulosa extract (stem and leaf) 210 mg [std. to 22% echinacosides (46.2 mg)]

Other ingredients: rice flour, vegetable cellulose (capsule), silica.

Non-GMO

Dosage and use

- Take one capsule daily with food, or as recommended by a healthcare practitioner.
