

Optimized NAD⁺ Cell Regenerator™ with Resveratrol*

Get advanced longevity and youthful cellular energy support

Item #02148 • 30 vegetarian capsules

Life Extension® was among the first to promote the amazing health benefits of both resveratrol and, later, NIAGEN® *nicotinamide riboside*. Now, Optimized NAD⁺ Cell Regenerator™ with Resveratrol combines NIAGEN®, *trans*-resveratrol, quercetin, and more to support healthy cellular metabolism, fight age-related fatigue, and regulate the genes that control aging.

Age-related declines in cellular metabolism and energy production can lead to feelings of fatigue. NIAGEN® *nicotinamide riboside* increases cellular levels of NAD⁺, an enzyme critical to healthy cellular energy production. And this formula gives you the optimal dose: in a new clinical study, 250 mg of *nicotinamide riboside* led to a 40% increase in NAD⁺ levels.

Resveratrol supports the healthy expression of genes associated with slowing down aspects of the aging process. This formula also contains fisetin and quercetin — phytonutrient compounds that augment resveratrol's healthy effects. Take the fight against aging to the cellular level with Optimized NAD⁺ Cell Regenerator™ with Resveratrol!
