Coffee is packed with antioxidants ... but traditional roasting techniques strip the beans of these health-promoting compounds. That's a shame, because coffee's polyphenol antioxidants help protect your body from oxidative stress — and chlorogenic acid inhibits the enzyme that stimulates excess gluconeogenesis, which can result in unhealthy blood sugar levels.

Life Extension®'s Rainforest Blend antioxidant coffee comes from 100%-certified organic Arabica beans prepared using a special HealthyRoast® process that preserves potent antioxidants and rich, delicious flavor. Plus, the HealthyRoast® process retains the natural compounds found in coffee beans that protect the stomach from distress.

Not all coffee delivers the same powerful health benefits as our unique Rainforest Blend. Get the most out of your morning — switch to our Rainforest Blend organic coffee today! Available in Ground, Ground Vanilla, Ground Mocha, Ground Decaf, and Whole Bean.
